“Kevin Laye is an excellent and remarkable clinical practitioner, who with his sensitivity and skill enables others to make significant and important changes with their lives.”

I have created this set of CD's to be unique. The purpose is to enable the listener to have access to a Meridian Therapy tool, which I use with my clients in Harley Street all the time. This is supplemented with a permissive, inductive relaxation trance. This trance will gently direct your non-conscious mind towards a more positive and beneficial set of thoughts and actions. I hope you enjoy using these tools as much as I enjoyed recording them for you. How would it feel if this system could give you total freedom and control... would there be value in that?

## **Bio**

Kevin Laye is a highly successful Harley St therapist. He uses a combination of techniques to deliver to his clients the outcomes they desire. These clients include, celebrities, sports stars, actors, pop and rock stars and even royalty.

His rapid no nonsense approach makes him a highly sought after practitioner. These recordings incorporate the techniques Kevin would employ with you in a one to one session. I look forward to working with you, to get you to where you choose to be.
